1. Implementation Preparedness Toolkit for Ebola (RCCE): This was developed by READY partner, CCP, prior to the start of READY. But given its clear relevance we wanted to share with you. The link is [here](#).

- **Summary:** *This Ebola Communication Preparedness Implementation Kit (I-Kit) provides national and local stakeholders, as well as program managers, with key considerations and a roadmap for instituting and implementing critical, relevant, practical and timely communication for responding to the threat of an Ebola Virus Disease (EVD) outbreak. The I-Kit guides countries in social and behavior change communication (SBCC) and risk communication activity planning, including communication plan development for every stage of an Ebola response.*

2. RCCE COVID-19 Toolkit. Though the Toolkit is primarily about COVID-19 there are a number of tools that are relevant to other types of outbreaks, including Ebola. The overall link to the toolkit is [here](#). Some specific resources within the toolkit that we feel are relevant include:

- Sample Job Description – RCCE Advisor
- Sample Job Description – Community Engagement Specialist
- Basic Guidelines on Developing and Contextualizing RCCE Messaging
- Tool for Pretesting Messages and Materials
- Message Development Checklist
- Practical Tool for Choosing Communication the Right Channel
- Brief Step-by-Step Community Engagement with links to Practical Community-Level Tools
- Rumor Categorization Tool
- Rumor Log Tool
- Practical M&E Tool for RCCE including sample RCCE Indicators
